

REMARKS

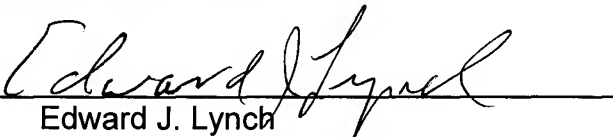

Applicant hereby requests that the present amendment replace the amendment filed on February 15, 2012. The said prior amendment was in error because apparently Applicant was working off of a computer copy of a much earlier amendment when preparing the amendment filed on February 15, 2012. As a result, a number of the claims in the February 15th amendment were in error. Applicant apologizes for the confusion.

In response to the communication mailed 02/08/2012, the listing of pending applicant shows the cancellation of the second occurrence of claim 33. Both claims 61 in the amendment filed February 15th and referred to in the Patent Office communication of 02/28/2012 were earlier versions which had been subsequently corrected. The single version of claim 61 in the above listing of pending claims is the correct version and depicts the changes earlier made to this claim.

The above pending claims listed in the present amendment should now be in proper format for reissue practice.

Applicant believes that the present application is in condition for allowance. Favorable reconsideration is earnestly solicited.

Respectfully submitted,

By: 
Edward J. Lynch
